EDUCATION

Nepal Engineering college, Changunarayan Bhaktapur (P.U)
Bachelor in computer Engineering
2019 - 2024

V.S.Niketan
10+2 computer major
2015 - 2017
73.3%

EXPERIENCE

Online Ticket Booking System (Project i)
Developed a web application using Django that allows users to book tickets for events seamlessly. Implemented features such as user authentication, event listing, and secure payment processing, enhancing the overall user experience.

Online Food Ordering System (Project ii)
Developed a web application using Django that allows users to browse menus, customize orders, and place food orders online. Implemented features such as user authentication and payment processing, ensuring a smooth and efficient user experience.

Eye Disease Detection and Therapeutic Suggestions (Project iii)
Created a web app with Flask and a mobile app with Flutter to detect eye diseases using user input and image analysis, providing diagnostic and therapeutic recommendations powered by machine learning.
